CONCORD, NH – Congressman Charles F. Bass (NH-02) announced today that members of his staff will hold public office hours in over 50 communities in the Second District this fall as part of an ongoing constituent outreach program.

In addition to staff conducting nearly 100 public office hours so far this year as well as weekly office hours in Salem, Bass has held seven town hall meetings in Salem, Jefferson, Hillsborough, Colebrook, Milford, Jaffrey, and Nashua, and has conducted seven telephone town hall meetings from Washington, with plans to hold many more in-person and telephone town hall meetings throughout the remainder of this year.

Bass said, "Constituent service is my top priority as the Representative of New Hampshire's Second Congressional District, and my goal is to remain as open and accessible as possible to constituents. From Salem to Hinsdale to Pittsburg, I've traveled thousands of miles to hear firsthand from the people of the Second District so I can best represent them in Congress. I look forward to continuing these discussions and meeting with many more constituents over the coming months."

Staff will be holding office hours in the following communities in September, October, November, and December:
